## To Whom It May Concern:

I would like to recommend **Somesh Gajanan Dhule** skills for entry level role of Network Penetration Tester or Ethical Hacking as per the ratings mentioned below. I have supervised him as a case study mentor for the past two and more months, and I know he will be an even bigger asset to the Red Team if he is taken.

He has a great work ethic, consistently turning in projects and assignments early. He also makes it a point to lend a hand to the rest of the department since he understands that we are all working together towards a common goal. His dedication to getting things done efficiently has been noted not just by his peers but by his superiors.

I think he will be a great red teamer. He steps up and takes charge when needed, which is crucial for success in any field.

Thank you for your consideration. If further information is necessary, do not hesitate to reach out at [contact@spinthehack.in](mailto:contact@spinthehack.in)

Best regards,
